

Information provided by

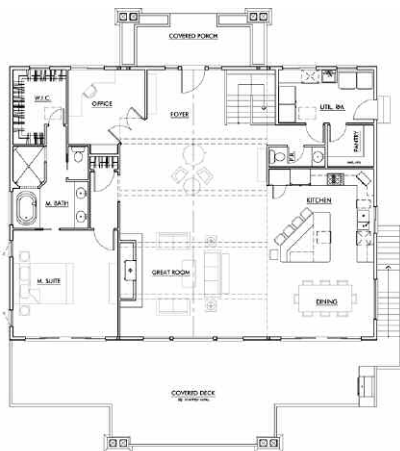

Gordon Gamelin, of Gordon Gamelin Homes, has been building quality handcrafted custom residences and retreat cabins in the Spokane/Coeur d'Alene area for more than thirty years. As a custom builder he is committed to delivering the highest quality possible along with outstanding service.

Designed by Oscar Torres of Design Services Northwest this custom crafted lake retreat sits atop the pristine eastern shores of Coeur d'Alene Lake. The home features an open floor plan with views of the water that abound from everywhere, a generous kitchen, three bedrooms, five baths, a private office, a completely finished lower level and a detached double-decker garage. The sun bathing deck and terraced patio create an extension of the home that brings the water right up to you.

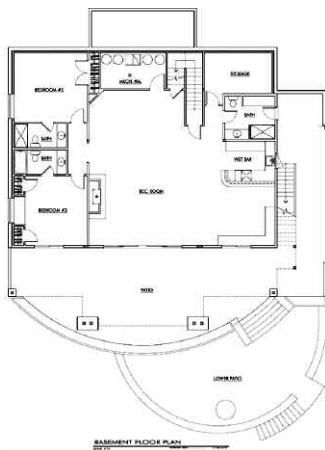

The interior décor consists of custom woodwork, hardwood floors, eight foot tall solid wood doors and a large stone fireplace that anchors the north end of the great room. The design also called for the use of large arched timber trusses carried throughout the vaulted foyer and great room. Along with the use of natural stones and granite the total combination adds warmth that invites the owner to sit, sip a glass of wine and relax while enjoying the views of the lake.

The lower level features a full surround sound theater with a one hundred inch screen that is recessed in the ceiling and drops down for use when needed. The fully equipped wet bar adjacent to the recreation room/theater room makes the perfect place to entertain guests.

If you are considering building a custom home or lake retreat please give Gordon Gamelin a call at (509) 994-2406. He will be happy to assist you with any questions or provide you with an estimate.
