SHOWCASE of  
green homes

The Showcase of Green Homes features 6 homes by 5 Certified Green Professional Builders; Spokane Home Builders Association by Builders Etc., Greenstone Homes (2), George H. White, Inc., Brent Peterson Homes and Victory Homes. Open today Sunday, June 20th from 10am to 6p.m. at The River District located in Liberty Lake. Brought to you by the Spokane Home Builders Association and proudly presented by Northwest Energy Star, Windermere Real Estate and DirectBuy. This is the Inland Northwest's first exclusively Energy Star and Built Green® Showcase. Visit [www.SpokaneShowcaseofHomes.com](http://www.SpokaneShowcaseofHomes.com) for details.

This home being built by Builder's Etc. is uniquely versatile for the buyer who desires a Northwest style Craftsman home, but also desires the energy efficiency of a 3-star Green Built® home. The builder has uniquely merged a great look with amenities, style and design to be the perfect solution for someone who is energy conscious and desires an extremely functional floor plan.

Featuring a full basement in which Insulated Concrete Forms (ICF) were used to ensure greater energy efficiency, a main floor with an open living room and kitchen and 3 bedrooms upstairs. This plan uniquely implements a rear-entry garage off a paved alley, to maximize the aesthetic appeal of the front elevation with landscaping by Mike Zandt at Zandtc Irrigation & Landscape, Inc.

**Driving Directions:** I-90 to Liberty Lake Exit 296. Coming from Idaho merge straight via the ramp onto Mission. Coming from Spokane turn left at Liberty Lake Drive from the exit ramp and go over the Interstate and turn left at Mission. Follow Mission 1.5 miles and turn right at Holl Blvd. For additional information contact Dustin Greenup 435-1107 or Tim Ayers at Builders Etc. 991-4580 [www.buildersetc.net](http://www.buildersetc.net)

Unfinished Basement:
