SHOWCASE of green homes

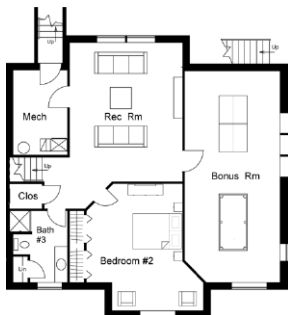

The Showcase of Green Homes features 6 homes by 5 Certified Green Professional Builders; Spokane Home Builders Association by Builders Etc., Greenstone Homes (2), George H. White, Inc., Brent Peterson Homes and Victory Homes. Opening Day is Friday, June 18th at The River District located in Liberty Lake. This is the Inland Northwest's first exclusively Energy Star and Built Green® Showcase. Visit www.SpokaneShowcaseofHomes.com for details. Brought to you by the Spokane Home Builders Association and proudly presented by Northwest Energy Star.

The Alterra is a multi-level home featuring generously-sized rooms and a four-car, side-loaded garage which lends a neat and tidy curb-front appearance to the neighborhood.

BuiltGreen® features, which include super-insulated walls; R-50 attic insulation, heat pump, and ultra-efficient gas furnace, help reduce energy costs to a minimum. All flooring consists of tile, bamboo, and stained, recycled-content concrete.

The Alterra is drafted in-house by George White, George H. White, Inc., and is tailored to each homeowner's needs. The plan is configurable from 3-5 bedrooms and can include a large, covered deck and double-deep garage which is great for bikes and storage. All versions include a complete master suite with double vanities, generous walk-in closet, and tile bathroom floors and shower. The kitchen features a walk-in pantry, all-wood cabinetry and stainless appliances. The elevated, main floor offers great views of Mica Peak, Mt. Spokane, and the neighborhood park. Come experience the Alterra located at 19781 E. Indiana Ave., I-90, North on Barker Road, Right on Mission, and Left on Hull Blvd. Contact Dan Dhaenens, Century-21, at 991-7349 for additional details.
